Welcome to UCCS!

New Supervisor Orientation Checklist

As a new supervisor, or a new supervisor to UCCS, there is a lot to learn. To help you on this journey, it may be helpful to learn about several departments and tasks you will need to complete in your role. Our suggestion is that you complete these trainings within your first 30 days, as they will help you learn about your new role and will give you tools to be successful. However, you may not be able access certain systems or complete certain job duties without some of these trainings. It is up to you to manage this process. Completed trainings on Precipio and LinkedIn Learning are automatically recorded, therefore there is nothing to turn in, unless your supervisor requests it.
